Meeting started at 12:02pm

The Meeting Minutes from 3 September were approved.

HES/HUES Electric Usage:

Eric indicated that recent changes to the Munters Unit setup have shown a decrease in electric usage although some of that may be a result of dryer weather as Fall temperatures decline. Evaluation will continue. An almost constant 10kw load on circuit C5T2 has been found and they are looking to see where it is coming from.

HBMS Greenhouse:

A complimentary review of the project was successfully provided to the Planning Board by Erin. Installation will begin as soon as Revision Energy can get it scheduled. HEC members will be available to support as needed.

Street Light Project:

Todd indicated that work is about to start and will be completed by year end.

Solar Exemption:

Lori informed the committee that the town assessor brought forward to the BOS a proposal to restructure the Hollis Solar Exemption. The change would add a property value increase equal to the current exemption. The BOS took this under advisement and no action is being taken at this time.

Adjourned 12:47pm

Next Scheduled Meeting: 5 November 2019

Respectfully submitted, Mike Leavitt
