### The Meeting Minutes from 8 October were approved.

#### Public Input:

Frank Grossman spoke to the Committee about his concern that Hollis has no formal tax policy concerning Group Net Metered systems such as his 1 acre 200Kw system. HEC has no involvement in town tax policy but we are interested in any issues related to private solar development in Hollis.

#### HES/HUES Electric Usage:

Eric and Paul are working on getting vendor help to better control the Munters Unit and allow it to connect to the Building Mgt System.

Todd indicated that he expected the Pump House heaters to kick on soon and we should expect to see that impact on the schools electrical use.

#### HBMS Greenhouse:

The installation of the solar panels was completed last month. No support from HEC members was required.

#### Street Light Project:

Todd confirmed that work on replacing lights has begun and should be completed in the next month.

#### Town Building Reviews:

Eric asked Lori if she could provide the non-electrical energy costs (oil, propane, pellets, etc) for the Town in order to update the Portfolio Mgt data. She will look into it.

Adjourned 12:57pm

Next Scheduled Meeting: 3 December 2019

**Respectfully submitted, Mike Leavitt**
