

REGISTRATION OF PAINT COLORS
For Properties in the Hollis Historic District

When deciding paint or stain colors for structures in the Hollis Historic District, owners are requested to select colors compatible with other properties in the immediate area as well as colors which are appropriate for the building's age and style. Although paint stain/color is regulated by the HDC, the desire is to make the registration process as convenient as possible for the applicant. Therefore, if your paint/stain project falls under either Plan A or B, it is sufficient to submit a fully completed registration form and then proceed with your paint/stain work.

Please fill out the paint color information and choose the method that is most appropriate for your paint/stain job. Submit this form along with front, back and side pictures of the structure to be painted or stained, and paint chips for each color you are registering.

Indicate plan to be used

☐ **PLAN A:** Using existing colors. No color change will be made to the structure.

☐ **PLAN B:** Using as a guideline, the paint brochures located in the HDC reference library at the Town Hall, the structure is being painted with colors appropriate for the age and style of the structure and are compatible with other structures in the surrounding area.

☐ **PLAN C:** The structure is not going to be painted with colors that are recommended in the HDC reference library. The HDC recognizes that there are other paint colors which are appropriate for structures within the Historic District. As of yet these have not been added to the list in the HDC reference library. These cases will be addressed in one of the following ways.

☐ I would like to be put on the next HDC agenda to discuss the color choices I have submitted for this structure.

☐ I wish the board to waive my appearance before the HDC for the approval of the paint colors I have submitted. I understand the chairman, or his/her appointee, will return to me in writing two weeks from the date at which I submit this application, his/her decision on the appropriateness of the color choices for this structure.

I (print name) _____ hereby submit this application and declare the above information to be accurate.
