COMMUNITY ROOM

PLEDGE OF ALLEGIANCE
The Pledge of Allegiance was recited.

PUBLIC COMMENT CLAUSE
The Select Board welcomes public comment before the start of the agenda for up to 2 minutes per person. The
Select Board is not obligated to respond or engage in a discussion. The Board will take comments under
advisement and, if appropriate, the Select Board may set the item for discussion at a future meeting.

PUBLIC COMMENT
Joe Garruba (Winchester Dr) commented that he recently testified against House Bill 1629. The bill requires
testing and training of planning and zoning board members. He felt there were three provisions in the bill that
were problematic for the town. One provision requires the density for housing for older persons to be applied
across the whole town. He felt this was a tradeoff between the two acre zoning requirement and the opportunity
to provide housing for older persons. Another provision eliminates the authority of the Select Board to extend
deadlines for the planning board. He felt this provision was problematic as things may change throughout the
planning board process or reports may take a while to receive. If the bill passes, there would be a hard deadline
due of 65 days, with no option of an extension. Lastly, appeals to the superior court require a bond to indemnify the
costs incurred by the developers, should the appeal be lost by malice.

He felt the significant changes were not getting a lot of attention and wanted to address it with the Select Board.
A second hearing for this bill is scheduled for the 29th at 3pm. Since the bill is supported by the governor, it is
not likely that it will be vetoed. He has contacted the state representatives about his concerns.

D. Petry commented that he bring his comments to the planning board as well.

ARTICLE 16 – Petition Article for New Hampshire Resolution to Take Action on Carbon Pollution
We the town of Hollis call on our State and Federal elected representatives to enact carbon-pricing legislation to protect New Hampshire from both the costs and environmental impacts of continued climate inaction. To protect households, we support a Cash Back approach, that places a fair price on the cost of pollution and uses the money raised to give equal cash-back rebates to residents. Enacting a Carbon-Cash-Back program decreases long-term fossil-fuel dependence, aids in the economic transition for energy consumers and keeps local energy dollars in New Hampshire’s economy. Carbon cash-back has been championed by US economists (Jan 17, 2019 WSJ) as the most effective way to deliver rapid reductions in harmful carbon emissions at the scale needed to address rapidly accelerating climate pollution.

We expect our representatives to lead in this critical moment for the health and well-being of our citizens and for the protection of New Hampshire’s natural resources upon which we all rely.
The record of the vote approving this shall be transmitted by written notice to Hollis’ state legislatures and Hollis’ congressional delegation, and to the President of the United States, informing them of the instructions of their constituents, by Hollis Select Board within 30 days of this vote.

The Board did not take a position on this article. The article has no impact on the town budget.

This suggestion was based on the fact that new information has been brought forth that the Board would like to review and discuss in further detail. There have been similar discussions about adjusting, expanding or rearranging the hours of the town clerk’s office as well. The Board has the option of including a warrant article to change the manner in which the town clerk is compensated, at the 2021 Town Meeting.
